emulator LED indication

green	Emulator power supply
red	emulator work - ESL simulation

The emulator automatically adapts to the car.
 The car can be started immediately after installation. No adaptation required.
 The disconnected ESL must be removed.

Installing the emulator for car installation:

1 Carry out all activities with the ignition switched off.

ESL

Disconnect the wiring harness plug from the ESL

2 Connect the emulator plug to the wiring harness plug previously disconnected from the ESL lock
